HCR Home Care's clinical specialists, home health aides, and coordinators work closely with primary care physicians, care providers, and family members to form a continuum-of-care focusing on patient health. Refer your patients when they can benefit from the evidence-based positive outcomes of home care.

Referral Conditions for Home Health Care Services

- A newly-diagnosed, change, or decline in condition
- Medication management needs
- Unsteady gait, falls, or fractures
- Acute or chronic pain management
- Weight loss or nutritional issues
- Mental status changes or depression
- Urinary tract infections or incontinence
- Teaching needs—disease process, injections, I.V. therapy, etc.
- Therapy needs—physical, occupational, nutritional, and speech
- Joint replacement recovery and therapy
- Unhealed wounds requiring management
- Telehealth Monitoring
- Frequent hospitalizations or ER use
- Caregiver issues

Benefits of Home Care

- Decreases hospital re-admissions
- Increases patient self-care management
- Decreases office visits and phone calls
- Improves clinical outcomes of the patient
- Provides caregiver relief
- Increases early identification of disease exacerbation

Are Costs Covered by Insurance?

Coverage is based on each individual case. Medicare, Medicaid, and most insurance plans are accepted. A nursing assessment can determine coverage. Refer your patient for an assessment today!
